

Alfred Hospital Medical Records Refurbishment

In 2016, arete Australia proudly partnered with the Alfred Hospital to revitalise their Medical Records department. This crucial project, executed under a Lump Sum contract, showcased arete's commitment to creating efficient and comfortable workspaces in healthcare settings.

arete undertook a comprehensive refurbishment of the existing office spaces, breathing new life into the heart of the hospital's administrative core. The scope of work extended beyond mere aesthetics, encompassing a complete overhaul of staff amenities and kitchen areas. These improvements were designed to enhance the daily experience of the dedicated professionals in both the Medical Records and IT departments.

The successful completion of this project has contributed to enhanced efficiency in record-keeping and IT operations, ultimately supporting the Alfred Hospital's mission to provide world-class patient care.
